

# Brownsville DiscoTech: an Intergenerational Technology Skillshare

**Saturday January 20th, 2018**

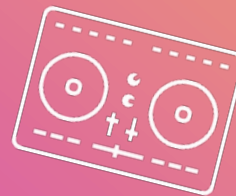

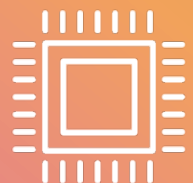

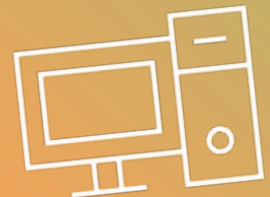

**10:00am–1:30pm**

**Brownsville Heritage House, 2nd  
Floor above Stone Avenue Library**

DiscoTech is short for “Discovering Technology,” and it’s an event where anyone, large or small, old or young, techie or non-techie, can come to share questions, curiosity, tips, knowledge, and resources about the technology we use everyday.

Come listen to music and learn and share! Topics could include cell phones, wifi access in Brownsville, 3D printing, virtual reality, surveillance, and using open data, taught by Brownsville residents.

RSVP at <http://bit.ly/brownsville-discotech>

This project is made possible in part by  
the Institute of Museum and Library Services
